Monkey's Valuable Discovery.
A literary discovery has just been made at the monastery of Mektiariatra, in the island of St. Lazarus, at Venice. A pet monkey had climbed to the top of a bookcase, where it seized hold of a bundle of papers, and breaking the string, showered down a number of letters, the ink of which had become yellow with age. They proved to be a long correspondence between Lord Byron and the monks of St. Lazarus with whom he had once resided.
